Sun, 20 Jan 2019 10:57:00 GMT graphing linear equations quilt project pdf - This project will assess how well you can graph linear equations in slope-intercept form. It will be due on: _____. *We will begin this in class and anything that is not finished during our time together must be completed at home. You will be creating a design for a quilt using the 9 equations on the back of this page given in slope-intercept form. Steps 1 & 2 will be worked out on the back of ... In the last few weeks, we have talked about systems of linear equations and learned several methods to solve systems including graphing, elimination, and substitution. We have explored several real life problem situations where we use systems to solve. Now it is your turn to find a real-life system and find a ... Fri, 04 Jan 2019 22:29:00 GMT Answer Key - University of British Columbia - Stained Glass Window Graphing Project Stained Glass Window is a project that requires students to graph linear equations in order to create a colorful (yet mathematical) display window. Each student selects and graphs at least twelve linear equations from the equation bank to create their own unique stained glass window . Wed, 02 Jan 2019 21:49:00 GMT Stained Glass Math Activity | Linear Equations Project - The project forces the students to really understand linear graphing, but it is a pain in the butt to grade because all of the students have different answers. This year, I tried having the students turn it in after each section was filled out so I could make sure they were doing it correct at each step. I'm not sure it helped. I still ended up only checking some of the linear equations. 1 ...
